

About EURAXESS India

EURAXESS India is a networking and information tool for European researchers working in India and Indian ones wishing to collaborate and/or pursue a research career in Europe. It was launched in 2011 and provides information about research in Europe, European research policy, opportunities for research funding, for international collaboration and for trans-national mobility. Membership is free.

The objective of EURAXESS India

The objective of EURAXESS India is to maintain the link of Europe with European and Indian researchers, scientists and scholars abroad thus stimulating scientific cooperation between Europe and India. The multidisciplinary network involves researchers at all stages of their careers and allows them to become well connected amongst themselves and with Europe, whether they remain in India or go to Europe.

How does EURAXESS India work?

EURAXESS Worldwide focuses on three types of activity: networking researchers, disseminating information and helping researchers to collaborate with colleagues in Europe and to find rewarding careers in Europe or India.

EURAXESS Worldwide, and EURAXESS India as part of it, offers the following services:

- The EURAXESS India website provides targeted information on sources of research funding in Europe and India, research career opportunities in Europe and conferences and training courses.
- A quarterly electronic newsletter featuring Research and Innovation in European countries, latest news and developments in research and innovation in Europe and India, interviews with researchers and more.
- Several meetings and events in India every year such as:
 - **European Research Day**: opportunity to discuss trans-disciplinary issues of common interest, share experiences and best practices.
 - **EURAXESS Science Slam India**: scientists present their research in a competition in front of an audience of non-specialists. The winner is selected on the project quality, but also the entertaining value of their presentation!
- Information sessions in Indian universities, research institutes and companies on the opportunities of cooperation and career with Europe.
- A regular flow of information to EURAXESS India members with flashnotes (email alerts) signaling mainly events, funding and collaboration opportunities.

EURAXESS Worldwide: a global network

EURAXESS Worldwide has been launched in North-America (USA and Canada), Japan, China, India, the ASEAN hub (encompassing Singapore, Thailand, Malaysia, Indonesia and Vietnam), and Brazil. The European Research Day is an event taking place in all EURAXESS Worldwide locations. And the EURAXESS Science Slam is the big competition taking place in Brazil, China and India.

EURAXESS India: a component of “EURAXESS - Researchers in Motion”

“**EURAXESS – Researchers in Motion**” is an initiative of the European Research Area (ERA) strategy that addresses barriers to the mobility of researchers and seeks to enhance scientific collaboration between Europe and the world. It is funded by the European Commission and has the support of 40 European countries.

In addition to **EURAXESS Worldwide**, it comprises **EURAXESS Jobs & Funding**, a comprehensive recruitment tool for researchers, entrepreneurs, research organisations & universities and business, **EURAXESS Partnering**, allowing to find host institutions and partners, and **EURAXESS Information & Assistance**, a network of more than 485 centres in 40 countries providing relocation assistance to ensure a smooth transition of Europe-bound international or expatriate European researchers.
